A computer science graduate with a 2:1 honours degree from the National University of Science and Technology looking to secure a position in a practical and fast-paced environment or similar to utilise my current skills and knowledge and also help me to further develop these skills. My eventual career goal is to become a system administrator and actively contribute to the success of the business I work for.

Education and Qualifications

National University of Science and Technology
(2013 – 2017)

Bachelor of Science (Honours) in Computer Science (Upper Second Class)

Key Skills gained:
- An understanding of computer science concepts and theory and its application to real world problems to come up with efficient solutions
- Introductory knowledge on many key computer science areas with ability to gain more knowledge
- Teamwork through many group projects and assignments
- Advanced problem solving and numeracy skills.
- Hardware management including repair and replacement
- Decent communication skills, both written and verbal, developed through numerous essays and presentations.

As part of the program, I completed a project on a sign language translator using Java and a natural language parser and it was graded 2.1. It is available in my github repo stated above.

Notable Modules - Computer Networks and Applications, Advanced Programming, Internet and Web Design, Operating Systems Concepts

Serima High School
(2011 – 2012)
A-levels**:**
- Chemistry – B
- Physics – C
- Mathematics – A

Chikwingwizha Secondary School
(2007 - 2010)
    11 Ordinary Levels grades A-C including Maths, English and Integrated Science

Work Experience

ICT Intern, Reformed Church University, Masvingo
(June 2015 – June 2016)
Duties included:
- Assisting university students with technical issues ranging from hardware and software troubleshooting to just general IT literacy assistance
- Assisting with university network administration
- Working with software programmer on software projects
- Hardware Management
- Computer troubleshooting and repairs
